

FOR IMMEDIATE RELEASE

### MEC selected as GLOBE 2016 Finalist for Cleantech Pitch Session.

March 1, 2016 - VANCOUVER, BRITISH COLUMBIA – ME Resource Corp. (the "Company" or "MEC") (CNSX: MEC | OTC: MEEXF) is pleased to announce that the Company has been selected by Evok Innovations as one of five finalists for the Cleantech Pitch Session at the GLOBE 2016 Innovation Expo. Submissions were evaluated based on the applicability and value of the technology to the oil and gas industry. Please visit: http://www.evokinnovations.com/cleantech-pitch-2016.html

MEC will highlight its technology to a panel of experts on March 3, 2016 at the Vancouver Convention Centre. The winner of the Cleantech Pitch Session will announced at GLOBE 2016 following the session.

Parminder Singh, Chairman of MEC, commented, "MEC is pleased to highlight some of the work it has been doing to reduce the carbon footprint of the oil and gas industry. MEC offers oil and gas companies an environmentally responsible technology that converts undervalued, harmful and wasted natural gas into valued engineered fuels and products on-site. Once proven out we know that our technology will be the right choice both from a social responsibility perspective and an economic one."

### **About Evok Innovations:**

Evok Innovations ("Evok") is a first-of-its kind investment partnership uniting Canada's oil and gas companies and the BC Cleantech CEO Alliance to fund and accelerate the development and commercialization of transformative energy solutions. This partnership was created to address the most pressing environmental and economic industry challenges. As an entrepreneur-led fund with the ability to provide early stage companies with capital to match their needs and stage, Evok can accelerate the pace of adoption by connecting portfolio companies directly to industry partners. By working closely with oil and gas end customers, Evok can ensure that the right energy innovations – along the entire value chain – are getting to market faster. To learn more about how Evok is fueling the next energy transition, please visit www.evokinnovations.com.

# **About ME Resources Corp.:**

ME Resource Corp. ("MEC") is a Canadian company focusing on the development, commercialization and deployment of an economical, mobile and modular waste natural gas processor, which synthesizes waste natural gas, both flared and vented, into green fuel - Engineered Fuel<sup>TM</sup> and Clean Power. ME Resource Corp. is also pursuing the acquisition, exploration and development of resource properties. The Company's objective is to explore and develop its current assets and pursue additional acquisitions.

The Corporation intends to acquire a portfolio of properties through project acquisitions, joint ventures and alliances.

## **Cautionary Statement Regarding Forward-Looking Statements**

This press release contains forward-looking information that involves various risks and uncertainties regarding future events. Such forward-looking information can include without limitation statements based on current expectations involving a number of risks and uncertainties and are not guarantees of future performance of the Company, such as final development of a commercial or prototype product(s), successful trial or pilot of company technologies, no assurance that commercial sales of any kind actually materialize; no assurance the Company will have sufficient funds to complete product development. There are numerous risks and uncertainties that could cause actual results and the Company's plans and objectives to differ materially from those expressed in the forward-looking information, including: (i) adverse market conditions; (ii) risks regarding protection of proprietary technology; (iii) the ability of the Company to complete financings; (v) the ability of the Company to develop and market its future product; and (vi) risks regarding government regulation, managing and maintaining growth, the effect of adverse publicity, litigation, competition and other factors which may be identified from time to time in the Company's public announcements and filings. There is no assurance that technology development in the oil and gas services business will provide any benefit to the Company, and no assurance that any proposed new products will be built, work successfully or proceed. There is no assurance that existing "patent pending" technologies licensed by the Company will receive patent status by regulatory authorities. Actual results and future events could differ materially from those anticipated in such information. These and all subsequent written and oral forward-looking information are based on estimates and opinions of management on the dates they are made and are expressly qualified in their entirety by this notice. Except as required by law, the Company does not intend to update these forward-looking statements.
